CLEANING & MAINTENANCE

PC: Privacy Curtains Cleaning Info - Wash Cycle: Process Cubicle fabric as any ordinary colored fabric, temperature not to exceed 160F. Use a synthetic detergent. Add softener to the last rinse cycle. Extracting Cycle: Fabric requires no more than 2-4 min. extracting, depending on size of load and equipment used. Drying Cycle: Do not overload dryer. Tumble dry for 3-5 min. on synthetic cycle 110F. As with all polyester fabrics, excessive heat will detract from the permanent press characteristics of this fabric. Finishing: If fabric is folded upon completion of the drying cycle, no finishing is required. Occasional light touch-up with a hand iron (275F max), or using a flat bed press with covered head may be desired for smoother seams. Important: Use cover cloth between fabric and iron or pressing head. Avoid prolonged contact with heat. Notes: Do not use caustic soap or bleach. Do not put through a mangle.
